Michael Blidner

Dear Shareholder:

In 1977, sales for your Company were \$88,453,451 compared to \$79,728,292 in the previous year and earnings were \$1,420,025 or \$1.74 per share, compared to \$1,432,592 or \$1.76 per share in the previous year. Despite the fact that earnings for 1977 were slightly lower than last year's earnings, management is encouraged by the results and believe that they auger well for 1978.

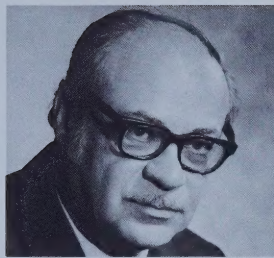

Drug Division

The Drug Division of your Company had an excellent year posting record sales and record profits. This was accomplished notwithstanding unusually intense competition in franchised cosmetics and generally unfavourable economic conditions.

For the past several years, both Woolco and ourselves were selling beauty care appliances. At the beginning of 1977, the Drug Division arranged with Woolco that the Drug Division would have the exclusive right to sell beauty care appliances. We are pleased to report that although we had foreseen some losses occurring from this take-over, we managed to absorb the losses and sales during 1977 benefited from this take-over. Our sales and earnings in the future should also benefit from this decision.

In our last message to you, we indicated that the Drug Division had embarked on an intensive computerized program to assist in the handling of our prescription business. This program is now operational in six stores, namely, Towne & Country, Agincourt, Dundas, Whitby, Mississauga and London. By year end, we hope to have this on-line system installed in a total of 30 stores, with 10 more stores in the first half of 1979 and with installations in additional stores where volume warrants it. This on-line computer system enables us to offer the public better and more efficient service and the benefits derived by your Company from this program will be progressively evident as more units become operational.

In May, 1977, the head office and warehouse of the Drug Division moved to larger and more modern premises. This move has contributed to greater efficiency and will facilitate continued growth.

Jack Austin

We plan to continue the Drug Division's expansion program in 1978, with the scheduled opening of six new locations.

Produce Division

1977 was the most unusual and difficult year in the Produce Division's history, due primarily to adverse climatic conditions in the prime United States growing regions. During the course of a single year, Florida experienced a devastating frost and California experienced a severe drought followed by torrential rains and flooding. All of these conditions caused a great scarcity of produce, a markedly reduced selling season and dramatically increased prices. As a result, although dollar sales were higher, tonnage was down and profits were affected.

The occurrence, all in one year, of such adverse weather conditions affecting the prime United States growing regions is most unusual. Barring a repetition of this, the Company expects to return to the usual trend of increased sales and profits exhibited by the Produce Division in recent years.

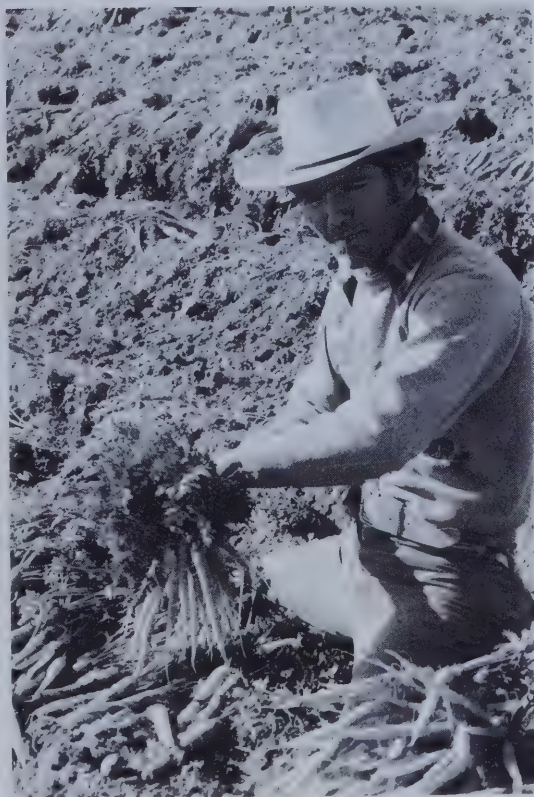

We wish to take this opportunity to thank our employees in both divisions for their able assistance and endeavours. Once again, they have made an outstanding contribution to the success of the Company. We greatly appreciate their continued loyalty and efforts.

Yours very truly,

M. Blidner

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

January 31, 1978

1. Summary of Significant Accounting Policies

(a) *Principles of consolidation*

These consolidated financial statements include the accounts of the company and its subsidiary companies, all of which are wholly owned. The activities of the companies are as follows:

PRODUCE DIVISION

Dominion Citrus & Drugs Ltd.
Dominion Farm Produce Limited
Skrow's Produce (1971) Ltd.
Country Fresh Packaging Company Ltd.
Lousana Holdings Limited

DRUG DIVISION

Jack Austin Drugs Limited
Fern Distributors (Division of Jack Austin Drugs Limited)
Jack Austin Pharmacy (Alberta) Limited
Jack Austin Pharmacy (Saskatchewan) Limited
Jack Austin Drugs (B.C.) Ltd.

At the balance sheet date the drug division operated or serviced 80 outlets in Woolco Department Stores, 6 outlets in Woolworth Department Stores and one free standing store. The sales for the drug division include sales of both operated and serviced outlets to show total sales under administration of the drug division. The drug division's operations in Prince George, B.C. were discontinued on January 17, 1977.

(b) *Marketable securities*

Marketable securities are stated at cost, which approximates market value at the respective balance sheet dates.

(c) *Inventories*

Warehouse inventories are valued at the lower of cost and net realizable value with cost determined generally on a first-in, first-out basis. The valuation of retail store inventories is determined by the retail inventory method which prices the majority of items at normal selling prices and reduces the amounts so determined to the lower of cost and net realizable value by applying normal profit margins.

(d) *Fixed assets*

These assets are stated at cost. Depreciation is being provided by the following methods and rates:

Buildings	— 5% on the declining balance
Warehouse and office equipment	— 20% on the declining balance
Mobile equipment	— 30% on the declining balance
Leasehold improvements	— Over the term of the lease on a straight-line basis

(e) *Prescription list*

This amount represents the cost of prescription files, etc. acquired in 1975. It is being amortized over five years.

(f) *Goodwill and excess of cost of shares in a subsidiary over book value at acquisition*

These pre-1974 amounts are not being amortized since, in the opinion of management, they have continuing value.

(g) *Deferred computer development costs*

Expenditures on programming and development of the on-line pharmacy computer system have been deferred and will be amortized over a five year period commencing February 1, 1978.

(h) *Deferred income taxes*

The company and its subsidiaries follow the tax allocation method of accounting. Under this method, timing differences between the amount of income reported for tax purposes and the amount of accounting income (which arise principally as a result of claiming depreciation of fixed assets, and expensing of computer development costs and the prescription list at amounts differing from those recorded in the accounts) result in provisions for deferred income taxes.

2. Fixed Assets

4. Bank Indebtedness

The bank loan is due on demand with interest payable at the prime bank lending rate plus one-half percent per annum and is secured by marketable securities and a general assignment of book debts.

5. Notes Payable

The company has received various loans for which it has signed promissory notes, payable on demand. The notes bear interest at the prime bank lending rate plus one half percent per annum.

6. Long Term Debt

	1978	1977
Term bank loan at prime rate plus 1%, secured by collateral first mortgage on 30 Rayette Road, repayable in four equal annual instalments	\$1,040,000	\$599,800

As of January 31, 1978 there were issued and outstanding 487,657 Class "A" shares and 386,093 Class "B" shares. The company currently holds 57,500 shares of its own capital stock pending future disposition.

8. Dividends

9. Earnings Per Share

Earnings per common share for 1978 and 1977 are based on the weighted average of shares outstanding during the year. No material dilution of earnings per share would result if all outstanding options were exercised.

10. Contingencies and Commitments

- (a) The minimum total annual rentals payable under license agreements expiring from 1980 to 1984 amount to approximately \$3,000,000 including certain occupancy costs (exclusive of additional rent payable based on a percentage of gross sales).
- (b) The annual rental payable under a lease expiring in 1988 for the former drug division head office and warehouse amounts to \$34,000 excluding certain occupancy costs. This space has been sublet for the balance of the term at a rate not less than the above annual rental.
- (c) The company intends to acquire during 1978 additional computer equipment valued at approximately \$250,000.
- (d) Subsequent events include the opening of new stores which are in the normal course of business. It is management's policy to write off the cost of new store openings in the year incurred.

11. Directors' and Senior Officers' Remuneration

Total remuneration paid or payable during the period to directors and senior officers as defined by The Business Corporations Act, 1970 (Ontario) amounted to \$482,497 (1977 — \$430,969).

12. Income Taxes

Income taxes otherwise payable for this fiscal year have been reduced by approximately \$170,000 resulting from application of the 3% inventory allowance in accordance with the provisions of paragraph 20(1)(gg) of the Income Tax Act. This reduction has the effect of increasing the earnings per share by 21¢ for the year ended January 31, 1978.

13. Anti-Inflation Legislation

The company and its subsidiaries are subject to the Canadian anti-inflation legislation which became effective October 14, 1975. This legislation provides for restraint of prices, profit margins, dividends and employee compensation.

The company believes it is maintaining compliance within the guidelines established by the applicable legislation.

14. Comparative Figures
